

FinTrack

Purpose & How It Solves the Problem

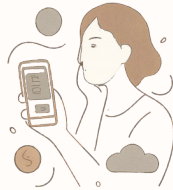

Turning passive users into disciplined wealth managers

Why Does Money Disappear?

Lack of Visibility

Transactions go untracked — money leaks in real time.

Behavioral Friction

Boring budgets get abandoned. Habits don't stick.

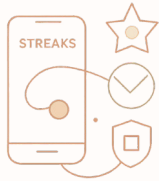

Information Overload

Users have data but not actionable clarity.

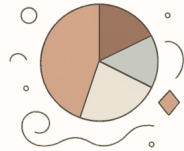

These three forces create silent drain — unnoticed, unmanaged, unstoppable unless redesigned.

4 Ways FinTrack Fixes It

Habit Formation

Streaks, badges & challenges turn saving and budgeting into repeatable habits.

Radical Transparency

50/30/20 breakdown + live spending charts expose leakage instantly.

Proactive Risk Management

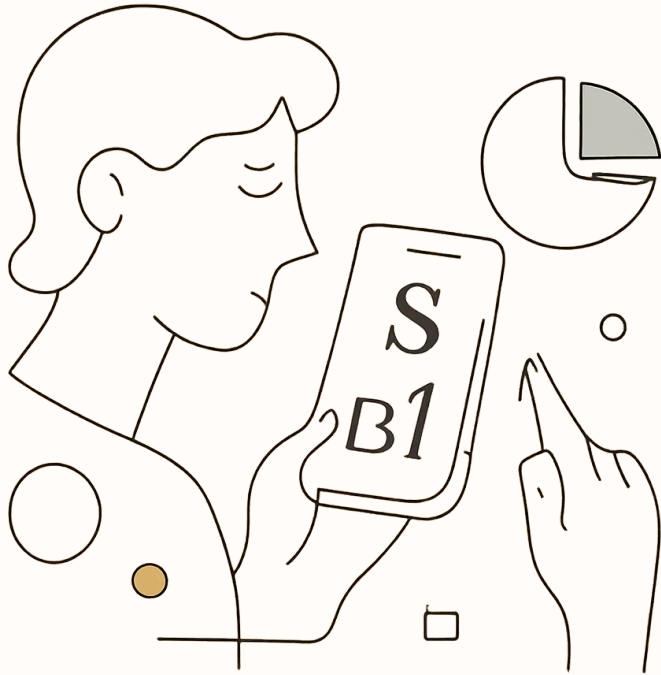

Budget warnings at 80%, savings runway in days, automatic spike detection.

Intelligent Guidance

Minto AI (RAG-powered) delivers timely, personalized actions — 24/7.

FinTrack is a Behavioral Engine

Beyond record-keeping — FinTrack converts passive users into active, disciplined managers of their own wealth.

Track. Understand. Grow.
